

Product Information

Pharma Pump – USA, Inc. has designed bottles and metered dosage engines for Pharmaceutical and Cosmetic applications that not only look good, but perform just as well. Our airless top fill bottles and metered dosage engines offer the following features:

- Top fill design saves you Time & Labor = \$\$\$\$
- 2-piece design; fill the bottle, click the metered dose engine on top and you're done!
- No internal bags to fill that might leak or burst
- Multiple sizes and colors of the bottles are available; 50 ml, 104 ml, 154 ml & 200 ml
- Metered dosage engines have an evacuation rating of over 97%
- The engine fits all of the bottle sizes
- No measuring is necessary for your patients – **one stroke** delivers a 1 ml dose
- Tamper resistant – once assembled, the engines are designed to stay on – *PERIOD!*
- UV rated to protect the contents (all bottles in **all colors**)

All of our bottles and engines meet all of the FDA requirements for Cosmetic and compounding Pharmaceutical applications.

We offer volume discounted pricing and friendly terms – 14-day net from order delivery. We also offer a FREE inventory stocking program to our clients that provides discounted pricing for large volume orders. We warehouse it for you and ship it to you as needed. Contact us for more details about this program.

We stock a supply of bottles and engines in our 3 colors – Clinical White, Pharma Blue and Natural (clear) in our warehouse every day. We can ship most orders within 48 hours and delivery to you is usually within 5 – 7 business days. Our stock varies based upon customer purchases so call for further details.

We strive to provide our clients with the best in service, products and quality.
